I am interested in programming and website development. I have been learning continuously on my own through online courses and YouTube, as well as through the projects I am working on. My GitHub showcases my experience in full-stack web development, from front-end frameworks like React to back-end solutions with Node.js and databases, including exploring APIs and real-time applications. I am determined to continue growing.

EXPERIENCE

e-merchant   MAR - OCT 2025

Data Prepare

- Check the parameters and add the campaign to the EDC . (Electronic Data Capture)
- Confirm the parameters in Automate and amend the information in Estate to align with the data on the MIS system.
- Complete the project 20250513_Reprog_PJ2505012_APPLESHEEP_59_E_L0_SC.
- Project 20250508_ReprogSW_PI2505004_PT_Pilot_60_e_L0_SC.
- Check and add campaigns project 20250605_ReprogSW_PI2506008_PT_7100_e_L1_SC.

EDUCATION

Nakhon Pathom Rajabhat University   2022 - OCT 2025

B.S. in Computer Technology

KEY ACHIEVEMENTS

Full Stack Developer (FutureSkill)

- Completed Full Stack Development courses on FutureSkill covering Frontend (HTML, CSS, JavaScript, React.js), Backend (Node.js, Express.js), and Database (SQL, MongoDB).
- Built multiple projects including a Todo List App with MongoDB + Mongoose + RESTful API, applying CRUD operations and user authentication.

BorntoDev

- Learned HTML, CSS, JavaScript, React, Node.js, and RESTful APIs.
- Developed small projects applying frontend and backend skills to enhance coding and problem-solving abilities.

INTEREST

Frontend

- Modern JavaScript Frameworks: React
- Frontend Tooling: Vite
- Frontend Deployment & CI/CD: Netlify, Vercel, GitHub Actions

Backend

- Backend Frameworks & Languages: Node.js (Express.js)
- Database Management: SQL (MySQL, PostgreSQL), NoSQL (MongoDB)
- Authentication & Authorization: JWT, OAuth 2.0
